

## Mission Statement

Beate Kubitz Associates Limited is a transport consultancy specialising in research, evaluation, and policy on future transport. It also makes clear recommendations on environmental best practice, carbon reduction and air quality improvement to help organisations work towards net zero. Sustainability is one of its core values and informs nearly all of its activities. It therefore commits to minimising the impact of its action on the environment wherever possible.

## Environmental Principles

Beate Kubitz Associates Limited will:

- Comply with and where practicable exceed all environmental regulations and standards that apply to the running of its business.
- Use sustainable modes of transport, such as bike, bus, train or EV, for site visits, business trips, meetings and presentations wherever possible.
- Promote environmental best practice in its dealings with customers and suppliers.
- Take account of environmental considerations when selecting suppliers.
- Reduce waste as far as possible in its offices, and recycle any waste produced.

## Responsibility for Delivery

The Director or Directors of Beate Kubitz Associates Limited will be responsible in the first instance for delivering this policy.

This policy was last updated 27 July 2021.
